RE: Conditional Use Permit Ordinance #8 - 2012

Dear Mr. Dimitrijevic;

I am writing as a follow up to the Village's approval of the Conditional Use Permit that allowed a Motor Vehicle Repair use at 17 Gateway Road. In reviewing the approval Ordinance there are compliance issues.

The motor vehicle repair use is conditioned on the building being improved in accordance with plans approved by the Village; this has yet to be done. In fact we have had several instances where the Village staff has posted the building "No Occupancy" which you continued to disregard. Village inspectors have documented that you are using the property for motor vehicle repair without a Certificate of Occupancy or a Business License. The Village's attempts to work with you to bring your operation into compliance with the Village's Codes and requirements have not been successful. The zoning approval was granted on February 28, 2012 meaning that it has been almost two years and the use has not been established in compliance with our Municipal Codes or the conditions of approval found in Ordinance # 8 – 2012. Unfortunately we must now take more proactive actions.

Municipal Code Section 10 – 3A – 11 D authorizes the Director of Community & Economic Development to revoke a Conditional Use Permit if the use is not established within one year or the actions taken after issuance of the Conditional Use are not consistent with the plans approved as part of the Conditional Use.

This correspondence is to serve as the official notice of revocation. Under the Municipal Code you are allowed fifteen (15) business days to answer the charge of noncompliance or to propose measures to bring the property into compliance with the conditions of approval within a reasonable time. Fifteen business days from tomorrow is February 19, 2014.

I ask that you let me know of your intentions.

Sincerely,

Dear Mr. Dimitrijevic;

Walk- Through Inspection

RE: 17 W. Gateway
Bensenville IL 60106

07-15-2014

Dear Mr. Patel,

It was a pleasure seeing you yesterday. Here is list of items we need to determine if we could grant occupancy to new tenant/owner of building.

1. Third party life safety study. Will help determine ventilation requirements, color coding of piping; warning signs; diking and containment of area of tank location, etc.
2. Commodity verses density study. Will help determine if sprinkler system's level of protection is capable of protecting tanks, and building. Modifications to sprinkler system will require permit.
3. Apply for business license.
4. Permits will be needed for interior build-out of office and or warehouse. A 1-hour fire separation wall will be required. Existing trenches will need to be filled in and made level.
5. Modifications to fire alarm system will require permit.

Storage of motor oil is limited to 13,200 gallons plus 13,200 additional gallons, being that it is a Class IIIB- H-3 hazard group.

No limit on quantity in a building equipped throughout with and approved automatic sprinkler system.

I am e-mailing this to Bill Donahue from Lichter Realty, Inc.

Please call if you have any further questions.

Best regards,
